

Map of downtown Shawano blighted area. Notice the highlighted gray area on the west side of Main Street with properties owned by Doug Knope. Although this area is in the center of the blighted district, it is not even included on the blight map. SIST properties, all of which are in the blighted area, are shown by gray dots.

Lorna Targets SIST Properties with Blight

Lorna and her big boys got together one night and took a new strategy to crush SIST financially. As you look through the blighted area map for the City of Shawano, one without a degree from Harvard can tell it is targeted to somebody they don't like. As a fact, when Lorna came to power 2 ½ years ago, she told her supporters that she would do everything in her power to remove and destroy Dr. Roy and SIST. As a fact, Lorna sent one of her big boys, who runs a big business here in town to Washington D.C. to see what he can do to fulfill her wishes. Federal government agencies questioned her motives and would not get involved in such illegal activity.

Finally, Lorna is doing what she can do in her black hole by sending octopus out in the deep night. This blight study came up when Lorna and her big boys were trying to come up with ways to go about to crush SIST. If you look at the route taken, called the blighted area, it is just simply targeted to SIST properties. But it excuses and goes around one of Lorna's big boys, Doug Knope's, properties. You can look at the map and see for yourself. Knowing their motives, you wonder how legitimate or accurate this study could be, you wonder what firm was hired to do the studies.

Everybody should see what Lorna is doing in the 21st century. What discrimination is being carried on in broad daylight under the color of law! Let everybody take a look at it. This goat is walking in sheep clothes.

Some say Lorna illegally, or maybe under the cover of law, put her grandson into the Shawano Police Department. Let people ask her to give an explanation for this.
